

Industry Visits

Conference attendees are invited to attend one of the optional Industry Visits on the first day of the conference, prior to the official opening.

Cost for all tours: \$27.50 (includes GST)

Tours must be booked and paid for in advance of the conference by completing the enclosed registration form.

Tour A

RETHINKING CAREERS IN THE GRAPHICS ARTS AND PRINTING INDUSTRY

EPIC Industry Training Board

The graphic arts and printing industry is expanding and integrating new technologies at a rapid rate. Personalised printing, multimedia, telecommunications/computer systems and digital imaging are just a few of the new career opportunity areas available to students. To highlight the diversity of occupations and the relevance of training which leads to them, visits will be made to two highly successful companies that are at the forefront of the industry

Host: Mike McNabb

Maximum number 24

Tour B

SPORT AND RECREATION – FROM PARTICIPATION TO VOCATION

Arts and Recreation Training Victoria

The sport and recreation industry is one of the more rapidly growing sectors of the economy, in terms of both its commercial potential and vocational opportunities. It is also extremely popular with young people and expectations of what work is available and how it may be obtained are often unrealistic. Through visiting a high profile venue in Melbourne participants will become better acquainted with the range of occupations that are available in the industry, the connections that occur between participation and employment and the challenges that face young people seeking to break into industry.

Host: Philip Wheelwright

Maximum numbers 30

Tour C

CERTIFICATE II HOSPITALITY (OPERATIONS) – VET IN THE VCE IS A PARTNERSHIP

William Angliss Institute of TAFE – Hospitality VET Program

Work placement provides the student with supervision and support while the student is gaining practical skills and knowledge of industry's expectations. Often this leads to ongoing employment. William Angliss Institute has forged strong links with industry to enable our students to gain a true understanding of working in the Hospitality Industry. The industry tour through the Grand Hyatt in Melbourne will give the participants the opportunity to see and understand the complexity of working in such a diverse environment and being guided through each department participants will see the inter-related communication and operations throughout the hotel.

Host: Judy de Bruin

Maximum number: 15

Tour D

EMPLOYMENT OPPORTUNITIES IN THE AUTOMOTIVE INDUSTRY

Automotive Training Australia

The automotive industry is a dynamic, high-technology industry with a great emphasis on customer service. The industry has suffered from a stereo-typing of 'salesman, grease monkey, production work'. This ill-informed image steers many away from the industry. Through visiting modern production facilities or a state-of-the-art customer service centre, participants will observe the changing face of the industry.

Host: John Braddy

Maximum number: – Retail site 30
– Manufacturing site 30

Tour E

IMPACT CREATIVITY CENTRE

Eumemmering SC

The Multimedia and Internet industry is an industry not even thought about 5 years ago. Work within it is the combination of many skills gleaned from many other industries and demonstrates the convergence in work patterns that may exist into the future. Those visiting Eumemmerring Secondary College's Impact Creativity Centre will observe an attempt to reconcile new training methodologies with the new communication technologies. Impact Creativity Centre is a Victorian Certificate of Education institution, a Registered Training Organisation, a Multimedia and Website production company and a national Internet Service Provider. Participants will see a training institution that is also an employer, and a production house that is also a training institution.

Host: Malcolm Beasley

Maximum number 10

Tour F

TAKING A PEEK INSIDE A MULTIMEDIA NICHE COMPANY

Fraynetwork Multimedia

Fraynetwork Multimedia is a producer of cutting edge interactive multimedia products:- videos, television documentaries, CD-ROMS, multimedia productions, web pages, educational publications, brochures and leaflets. Fraynetwork Multimedia delivers content of quality to the community and cultural sectors, promoting empowerment and exchange of insight and understanding through the use of new technologies. A particular focus for production is the promotion of reconciliation between indigenous and non-indigenous Australians and the management of websites for global organisations with a focus on social responsibility.
